

Your donation will help keep our programs running...

You can be a program angel by donating to our Annual Fund. Because we are a private non-profit agency, government grants do not fund our programs. Most of the grants we receive are for specific programs, but do not pay for such unglamorous items like keeping the lights and heat on so that our programs can run efficiently.

If you are touched by the plight of the one in seven of your neighbors who are food insecure, please consider donating to the Annual Fund. Your money will be used to purchase equipment such as coolers or shelving for our food pantry. Or, it may be used to help pay the salary of our food pantry coordinator.

If you have a love of children and understand that a child has a much greater chance of graduating on time if they are involved in a strong early childhood program, please consider donating to the Annual Fund. Your money will be used to purchase educational supplies, fund gas for the vans for field trips, or pay for a certified teacher's salary.

Just as we cannot expand our programs and services without the help of our volunteers, we cannot fund our programs without unrestricted funds from YOU, our donors.

Thank you to each of you who give so generously of your time, talents, and treasure.
